'stern review the economics of climate change

June 1st, 2020 - stern review the economics of climate change iii

the first half of the review considers how the evidence on the economic impacts of climate change and on the costs and benefits of action to reduce greenhouse gas emissions relates to the conceptual framework described above'

' why are economists letting down the world on climate

May 30th, 2020 - action on climate change is arguably the greatest challenge for public policy of our times but

despite economic forces being the major driver of the carbon dioxide problem this column argues that

economists have so far been too silent on the subject for example the quarterly journal of economics the most
