

# Made In Los Angeles Materials Processes And The Birth Of West Coast Minimalism By Rachel Rivenc

"Críticas "Interviews with artists and fabricators, results from extensive analytical work, and discussion on the display and conservation of works by each artist enrich the text."--Winterthur Portfolio Reseña del editor In the 1960s, a group of Los Angeles artists fashioned a body of work that has come to be known as the "LA Look" or West Coast Minimalism. Its distinct aesthetic is characterized by clean lines, simple shapes, and pristine reflective or translucent surfaces, and often by the use of bright, seductive colors. While the role of materials and processes in the advent of these truly indigenous Los Angeles art forms has often been commented on, it has never been studied in depth -- until now. Made in Los Angeles focuses on four pioneers of West Coast Minimalism -- Larry Bell, Robert Irwin, Craig Kauffman, and John McCracken -- whose working methods, often borrowed from other industries, featured the use of synthetic paints and resins as well as industrial processes to create objects that are both painting and sculpture. Bell, for example, coated plate glass with films of material that alter the way the light is absorbed, reflected, and transmitted, while Kauffman employed a process usually reserved for commercial signs for his work. McCracken coated plywood with fiberglass then spray painted it with countless layers of automotive paints, and Irwin spray-painted discs of hammered aluminum or vacuum-formed plastics. The detailed study of each artist's work is presented in the context of the emergence of modern art in Los Angeles, the burgeoning mid-twentieth-century gallery scene, and the light-infused LA cityscape. Initially undertaken as part of the Pacific Standard Time: Art in L.A.1945-1980 initiative, this volume combines technical art history and scientific analysis to investigate conservation issues associated with the work of these artists, which are often emblematic of issues in the conservation of contemporary art in general. Biografía del autor Rachel Rivenc is an associate scientist at the Getty Conservation Institute." home los angeles custom concrete experts amp solutions. la made. hollywood and wilcox project los angeles city planning. join us at the 3rd additive aerospace nx manufacturing. clean up your closet with these 15 organic clothing brands. our process best los angeles landscaping. total air pollution emissions in los angeles county. materials process amp physics jobs in los angeles at boeing. jewelry manufacturing jobs employment in los angeles ca. steven anthony furniture manufacturer made in usa los. materials manager salary in los angeles ca salary. frieze los angeles shows to see ocula. is made in usa making a eback the epoch times. boeing materials processes amp physics engineer job in. the most innovative phone cases are made in a los angeles. 3 los angeles bureau of engineering permit manuals. fumigation. 11 best products made in los angeles cbs los angeles. think plastics are bad for the los angeles times. madera home custom furniture made in los angeles. 9 usa made denim brands actually making america great again. made in los angeles materials processes and the birth. kelly akashi hammer museum. how watch is made material manufacture making used. about us machine jeans. were the raw materials in your iphone los angeles times. how los angeles inspires the artists of made in l a. steven anthony furniture manufacturing and design los. manufacturing manager salary in los angeles ca salary. about us rafa. 53 social impact panies in los angeles built in los. beauty packaging make up in los angeles 2019 march 08. earl l stendahl. the indoor landscape of los angeles manufacturing and. how disposable diaper is made material manufacture. about us artgreen los angeles artgreen construction. 9 ethical and sustainable fashion stores in los angeles. los angeles environmental learning center. 50 panies with the best benefits in los angeles 2020. made in los angeles news item getty. made in los angeles materials processes and the birth. materials processes amp physics engineer at boeing. molly thornton writing coaching koreatown los angeles ca. 1 los angeles bureau of engineering permit manuals. cnc machining in los angeles 3d hubs. block copolymer based nanostructures materials processes. made in los angeles materials processes and the birth. spacex to build its massive rocket in los angeles. book review made in los angeles materials processes and
