"Synopsis Following the success of 'Little Owl's Book of Thinking', Ian Gilbert now introduces 'The Little Book of Thunks'. A Thunk is a beguiling question about everyday things that stops you in your tracks and helps you start to look at the world in a whole new light. The Thunks in this book cover most areas of human existence including truth, justice, reality, beliefs, the natural world, the human condition, art, beauty, existence, right and wrong, good and bad, life and death, war, religion, love, friendship and whether Marmite tastes nice. Examples include: If I borrow a million pounds am I a millionaire? Could a fly cause an aeroplane to crash? Are you man-made or natural? Do dogs believe in God? When you comb your hair is it art? The book contains a comprehensive introduction by Ian who guides you through the origins and uses of Thunks and how best to use them. Not only are they a fun way to develop thinking skills but they also hit all the right buttons in the National Primary Strategy 'Creative Thinking' strand where children are encouraged to: generate imaginative ideas to stimuli; look at and think about things differently and from other points of view; and 'ask 'why', 'how', 'what if' or unusual questions'. This is a great resource for teachers to use in the classroom - and remember there are no right or wrong answers to these questions. How liberating is that...? Über den Autor und weitere Mitwirkende Since establishing Independent Thinking 25 years ago, Ian Gilbert has made a name for himself across the world as a highly original writer, editor, speaker, practitioner and thinker and is someone who the IB World magazine has referred to as one of the world's leading educational visionaries. The author of several books, and the editor of many more, Ian is known by thousands of teachers and young people across the world for his award-winning Thunks books. Thunks grew out of Ian's work with Philosophy for Children (P4C), and are beguiling yet deceptively powerful little philosophical questions that he has created to make children's - as well as their teachers' - brains hurt. Ian's growing collection of bestselling books has a more serious side too, without ever losing sight of his trademark wit and straight-talking style. The Little Book of Bereavement for Schools, born from personal family experience, is finding a home in schools across the world, and The Working Class - a massive collaborative effort he instigated and edited - is making a genuine difference to the lives of young people from some of the poorest backgrounds. A unique writer and editor, there is no other voice like Ian Gilbert's in education today."
