

## Happy Money The Science Of Happier Spending By Elizabeth Dunn

"Pressestimmen 'If you think money doesn't buy happiness, then you're just not spending it right. In this lively and engaging book, Dunn and Norton use the latest scientific research to show how you can get a bigger emotional bang for your hard-earned bucks. Happy Money isn't a purchase; it's an investment' and a shrewd one at that." **Daniel Gilbert, author of *Stumbling on Happiness*** "No one understands how to get more happiness out of our money better than Liz Dunn and Mike Norton. Their research is not only on the cutting edge' it changes where the edge is. Like stand-up comedians of science, Dunn and Norton take ordinary observations that everybody experiences and craftily distill them with a clarity that makes us laugh, and then makes us think. They have done us a great service by sharing their knowledge with us in the easy-to-apply principles they present in this book." **Dan Ariely, author of *Predictably Irrational*** "How to spend smarter? Read this book!" a rare combination of informed science writing, rollicking good fun, and practical pointers for a more flourishing and compassionate life. **David G. Myers, author of *The Pursuit of Happiness*** "Many books have been written to tell you how to make money, save money, and invest money. Now there's a book that can tell you how to spend it. Wisely." **Chip Heath, co-author of *Made to Stick* and *Switch*** "[Dunn and Norton's] infectious enthusiasm for their subject is admirable.... They provide an interesting exploration of increasing happiness by buying time, as well as ways to address budgeting." **Kirkus Reviews** "University of British Columbia psychology professor Dunn and Harvard Business School marketing professor Norton, friends from graduate school, offer a witty, lively guide to changing the philosophy behind spending so that it brings you true joy.... Readers cannot help but be charmed by this funny, warm guide to creating the good life from scratch." **Publishers Weekly** "This small, snappily written book is focused on five points, all directed at enabling people to get more bang for their bucks... Buy [this] book, read [it], take the advice [it] offer[s] to heart, and you'll be a happier person." **Barry Schwartz, Los Angeles Review of Books** "Each of Dunn and Norton's five principles offers a scientifically validated means of increasing happiness. Like asking a surgical expert to perform your heart transplant, following their principles might be better than just winging it. And luckily, spending money is a lot easier and much less messy than major surgery." **Guy Kawasaki** "Packed with tips...people will come away from this book believing it was money well spent." **The Economist** "Dunn and Norton strive to show how to spend money in less typical but more pleasing ways. They offer five principles you can use to buy happiness". I love the five principles of happy money because they aren't about getting more money but getting more out of the money you have. **Michelle Singletary, The Washington Post** "Über den Autor und weitere Mitwirkende Elizabeth Dunn is an associate professor of psychology at the University of British Columbia in Vancouver, Canada. At age twenty-six, she was featured as one of the 'rising stars' across all of academia by the Chronicle of Higher Education. **Michael Norton** is an associate professor of marketing at the Harvard Business School. His research has twice been featured in The New York Times Magazine Year in Ideas issue. In 2012, he was selected for Wired magazine's Smart List as one of '50 People Who Will Change the World'." happy money the science of happier spending walmart. happy money the science of happier spending 1227. happy money the science of smarter spending dunn. happy money science of happier spending with liz dunn. happy money the science of happier spending dunn. book happy money elizabeth dunn. happy money the science of happier spending by elizabeth. 5 ways to spend money to feel happier the art of happy. how to use money to buy happiness according to harvard. 5 ways to spend your money that will make you happier. happy money book by elizabeth dunn michael norton. happy money the science of happier spending elizabeth. happy money the science of smarter spending by elizabeth dunn. spending money on others promotes happiness science. happy money the science of happier spending indiebound. happy money the science of happier spending elizabeth. buy happy money the science of happier spending book.
