

China S Eco City Construction Research Series On The Chinese Dream And China's Development Path By Jingyuan Li Tongjin Yang

"Buchrückseite This book introduces the concept of Eco-civilization, highlights the construction and development of eco-cities in China, and assesses the achievements and shortcomings of China's eco-city construction projects. As both China and Western countries face an impending ecological crisis, responding to that crisis is a common challenge for all human beings. There is an overwhelming consensus among Chinese scholars that in order to successfully address the ecological crisis successfully we must establish an eco-civilization, and one important step toward accomplishing that goal is to plan and construct eco-cities. Über den Autor und weitere Mitwirkende Professor Jingyuan Li is the director of Center for Culture Study, Chinese Academy of Social Sciences (CASS), and the previous president of Institute of Philosophy, CASS. His research field includes Marist philosophy, epistemology, and practical philosophy.
